

Dewey Drive Band - Stage Plot / No House PA

-07/01/13

DDB is a self-contained three piece band; Drum set, Electric Guitar and Electric Bass Guitar.

-Total inputs = 8 XLR (3 out of the 8 need phantom pwr)

** Electric Guitar

Placement – Stage Left
2X12 Guitar Combo Amp

Inputs –

1 XLR Amp Mic
1 Vocal mic XLR

** Drum Set

Placement Center Stage
Primary singer, needs vocal monitor

Inputs –

2 over heads mics XLR/phantom pwr
1 Bass Drum mic XLR
1 Vocal headset mic XLR/phantom pwr

** Electric Bass Guitar

Placement – Stage Right
2X10 Bass Combo Amp

Inputs –

1 XLR Amp/DI
1 Vocal mic XLR

** PA

For venues with no house PA, band uses its own Bose Tower PA/monitor.

-Placed 4' or more behind drummer

For venues with house PA, need three performer monitors, for Guitar Player, Drummer and Bass Player.

** Outdoor Shows

Electricity need a 120 AC 20amp outdoor/GFI outlet preferred, a 15amp dedicated circuit outlet is OK.

-We carry a 100' heavy duty extension cord if we need it

Prefer a roof over our heads, under a porch/tent/canopy is fine.

-drums/PA does not move very quickly in an unexpected rain shower

** Placement of Band

Need at least a 15' wide x 6' deep, fairly level, area to setup in, more if you can spare it.

-Corners can be a good spot to have the band setup, keeps us out of the way and more space for dancing
